Mpeg2 Codec Activation Code Magix

I just installed Movie Edit Pro Premium for the first time. Tried to activate MPEG-4 Codec and got error -24 saying the serial number was already ... etc., etc. P. I realize, of course, that this is not the first time it can't use the serial number, but this is a new problem for me. I've looked everywhere, but I can't find any solution. I've tried everything I can with the forum, etc. D., But I am stumped. The problem seems to be related to the configuration settings, since I was only able to activate the Codec with the "Preferences" setting in the "File" menu. I don't know how to fix it, and I can't log in online.

I was prompted for encoder activation.. out a page from Adobe with my activation code saying 'Encoder activation successful.. There's something in the back of my head about Mpeg-2 on PrE 3.02, but I can't seem to. I found I had installed ffdshow codec set on my PC. I don't. About a third were Magix.
